LOOK UP

2. Paul is working toward unity between two women that are having a disagreement. How important is unity in the church? Why?
3. Paul instructs the church to rejoice and he does so with the force of a command. How could Paul give such a command in view of the Philippians' suffering?
4. Is the peace Paul refers to objective or subjective? In what way does God's peace guard our hearts and minds?
5. Why is Paul exhorting the church to keep on thinking and doing what is morally and spiritually excellent? Do we need the same exhorting today?
